Dear Explorers,

Week 5 Talk Expedition Medicine: Part I

Ever wanted to learn how to respond to medical emergencies in the field?
During this introductory course, we will give you a taster to expedition medicine. You'll learn the basics of how to manage the medical emergencies commonly experienced whilst in the field - from bites and stings to heat stroke and altitude sickness, plus lots more!

The Expedition Medicine Workshop will be split into two sessions:

Part I, coming up on **Tuesday 15 February**, will be an introduction to first aid. We'll cover the basics, so no prior knowledge needed! Part I will be led by Vedang Narain and Carla Fuenteslópez.

Part II will take place in Trinity Term and will focus on more niche topics, such as decompression and altitude sickness.

Expedition Medicine: Part I

Date: Tuesday 15 February 2022

Venue: Platnauer Room, Brasenose College

Time: 19.30h

This week, we're trialling a hybrid event. To join the Teams live streaming, please register [here](#) to access the event.

Coming up in week 6...

Marine Expeditions and Indian Ocean Biodiversity: Denise Swanborn

We look forward to seeing you on Tuesday!

- Carla V. Fuenteslópez, OUEC President
